1. log base change proof
2. change of base formula proof pdf
3. change of base logarithms proof
```

The base b logarithm of x is equal to the base c logarithm of x divided by the base c logarithm of b:Example #2Raising b with the power of base b logarithm of x gives x:Raising c with the power of base c logarithm of b gives b:When we take (1) and replace b with c log c (b) (2), we get:By applying logc() on both sides of (3):.
